Spanish (Native)

English (A2)

## PERSONAL PROFILE

I am a Full-Stack web developer motivated by continuous learning and facing new challenges. I dedicate my free time to studying new technologies. My goal is to keep improving and work on what I am passionate about within web development.

## EXPERIENCE

### MPSOLUTION (2024 - PRESENT)

Full-Stack Developer

- Website maintenance, including client-requested updates and database migrations.
- Implementation of improvements and new features in websites and applications.
- Deployment and maintenance of applications, setting up continuous integration and deployment (CI/CD) pipelines with tools like GitHub Actions, Docker, and Kubernetes.
- Integration with Artificial Intelligence using the OpenAI API.

Technologies used: React.js, Node.js, Nest, Tailwind, Docker, Kubernetes, AWS.

### CONOSURIT (2022 - 2023)

Full-Stack Developer

- Website maintenance, including client-requested updates and database migrations.
- Implementation of improvements and new features in websites and applications.
- Integration with document management systems, working with Alfresco 6.1 and CMIS API for automating and optimizing document searches through custom queries.

Technologies used: Angular, Node.js, Bootstrap, PostgreSQL, Docker, Alfresco.
